

****WISHING WELL [11-05]***

**Dear friend of mine, long tried and true,
I wish this wishing well for you.
Just pitch a penny in today,
True joy and peace will come your way.**

**A place of shelter from life's storm,
To keep you safe and free from harm.
Then wish your folks and friends be there,
With open arms, their loving care.**

**Wish then the love of all your life,
And she will come to be your wife.
A helpmate, lover, pal and friend,
To hold and keep you till the end.**

**A fruitful life, with kids and pets,
No looking back - no last regrets.
And might these dreams (your dreams) come true,
I wish this wishing well for you.**

**To dear friend, Artful Dodger*
